EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a) In the Title

After "Scaling" insert --Including Forming a Second Metal Silicide Region on the Substrate--

b) In the Claims

Cancel claims 25, 26.

This application is in condition for allowance except for the presence of claims 25, 26 directed to a group non-elected without traverse. Accordingly, claims have been cancelled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: while the prior art of record teaches forming two different silicides, the features in claim 1, lines 4-9,

"forming a first metal silicide adjacent to said polysilicon feature while covering a top surface and sidewalls of said polysilicon feature;
doping said polysilicon feature after forming said first metal silicide,
exposing said top surface; and

Art Unit: 2823

forming a second metal silicide in said polysilicon feature, said second metal silicide differing from said first metal silicide,"

cannot be found in the prior art of record. The prior art of record fails to teach, in combination, the process features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
